

Outdoor Recreational Wood Fire Pits or Fireplaces:

1. Only dry wood that is completely contained within the device is permitted to be burned.
2. Smoke from the device shall not create a nuisance for other properties.
3. No fireplace or fire pit shall be used on a wooden deck, wooden porch, or wooden patio.
4. An ABC fire extinguisher or garden hose must be readily available and the fire pit shall never be left unattended.
5. If the wind speed is in excess of 8 miles per hour or the smoke creates any issues with the neighbors, use of the device is not allowed.

Failure to follow these guidelines may cause you to lose any privileges to using a device.
